간단 소개

I am a versatile IT and digital imaging engineer with strong skills in software development, graphics programming, and full-stack technologies. My experience spans Python, Java, C++, C#, JavaScript, and tools such as Unity, OpenGL, MATLAB, and PyTorch. I enjoy building practical solutions—from 3D industrial tools to game development projects—and I value clean code, teamwork, and continuous learning. With a background that combines engineering, problem-solving, and hands-on technical work.

학력

2018/09 ~ 2023/10
(졸업)

석사

ESIR

IT - Digital Imaging

이수 과목

Maths for Medical Imaging | Game Design | Maths for Image application | AI | Python | Java | C++ | OpenGL | Matlab | Git | Qt | Communication | Management | C# | Unity

경력

2025/06 ~ 2025/08
(3개월)

정규직

Artis Interim

interim - Car Mechanic

Installation of options on vehicles intended for sale (coupling, interior fittings). Diagnosis and reconditioning of used vehicles for sale

2023/10 ~ 2025/04
(1년 7개월)

정규직

Ronceray
Car Mechanic

Diagnose and repair various mechanical systems to ensure the proper functioning of vehicles. Perform preventive maintenance to extend the life of automotive equipment

2023/02 ~ 2023/08
(7개월)

인턴

Cooper Standard
Full Stack Engineer

Develop digital tools to optimize factory organization in a 3D environment, program applications in JavaScript, HTML and CSS to improve internal processes. Integrate web technologies to strengthen the efficiency of industrial operations

2020/07 ~ 2023/02
(2년 8개월)

아르바이트

Cegedev
Remote Monitoring and Assistance Operator

Supervise alarm systems for the protection of property and the safety of elderly and people in need of assistance

2021/07 ~ 2021/08
(2개월)

인턴

Solid'R
Web Development

Develop and launch the newly designed website using Flutter, improving the user experience

언어 능력

한국어	Basic
영어	Fluent
프랑스어	Native

자격증

2022/10 ~ 2024/10

English Proficiency C1 - 970
ETS

스킬

GitHub · Python · PyTorch · C++ · Java · 의사소통 기술 · 시간 관리 · 고객 서비스 · C# · REST API · Deep Learning · Matlab · 문화 적응력
